I have had the opportunity to attend a couple of seminars at Harvard for ComputeFest 2014 and Computefest2015. In the two workshops I was able to learn Python programing and MatLab programing languages. I was able to take college and even post grad workshops as a junior and senior year with those who are in the field now. What I took away from this was the ability to network with others and obtain knowledge on new subjects at an advanced level.

Technical competencies and academic skills demonstrated by completing this assignment.

Framework Standard	Description
2.C.02	Demonstrate fundamentals of Object Orientated (OO) Programming.
2.C.03	Construct a program
2.C.01	Implement concepts fundamental to programming
Embedded Academics	Description
2.A.01.01	Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task
2.A.01.04	Follow precisely a complex multistep procedure when carrying out experiments, taking measurements, or performing technical tasks, attending to special cases or exceptions Defined in the text.
